INFORMED CONSENT FOR DIMPLE CREATION SURGERY

I confirm that my surgeon has explained to me the advantages, limitations and particularly complications associated with Buccal Fat removal surgery.

COMPLICATIONS:

- Scarring
- Haematoma
- Infection
- Bleeding
- Injury to branches of the 7th nerve
- Weakness of muscles
- Parotid Duct/Parotid Gland Injury
- Wound Healing Problems
- Asymmetry
- Under / Over Correction
- Revisional Surgery
- Imperfect Result
- Unsatisfactory Outcome
- I have read the information fact sheet supplied
- Emphasised the importance of realistic expectations
- Persistence of unwanted dimple for an unpredictable time
- Complete disappearance of the dimple on one or both the sides in such a case, multiple revision surgery may be required
- Long term effect of Dimple Creation is uncertain

Please note: Any form of cosmetic surgery should not be performed if you are pregnant or you suspect you may be pregnant. It is your responsibility to inform your surgeon or the practice if this may be the case.
